Audiology

An Audiologist is a health care professional that evaluates, diagnoses, treats and manages hearing loss and balance disorders in patients of all ages.

Our Audiologists have obtained a Doctor of Audiology (Au.D) degree from an accredited university. Our Audiologists are licensed in the state of Wisconsin.

Depending on the reason for your visit, you may be scheduled to have a diagnostic audiological evaluation prior to your appointment with your ENT physician in order to properly diagnose your symptoms.

An Audiologist will also be able to:

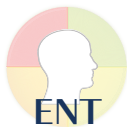

- Prescribe and fit hearing aids.
- Design and implement hearing conservation programs and newborn hearing screening programs.
- Perform diagnostic hearing and balance testing.
- Custom Ear Protection for hunters and musicians.

ENT & ALLERGY
ASSOCIATES, S.C.

Thank You for Choosing ENT & Allergy Associates, S.C. for your Care

Follow us on

An Otolaryngologist (commonly referred to as an “ENT Physician”) is trained in the medical and surgical management and treatment of patients with diseases and disorders of the ear, nose and throat including the head and neck. Otolaryngologists complete up to 15 years of college and post-graduate training. Our ENT Physicians are board certified.

EARS (OTOlogy)

- Ear Infections
- Ear Tubes
- Hearing Loss
- Ringing in the Ears
- Speech Delay
- Ear Pain

NOSE (RHINOlogy)

- Deviated Septum
- Nasal Fractures
- Sinusitis
- Snoring
- Sleep Apnea
- Sinus Surgery
- Nasal Blockage

THROAT (LARYNGology)

- Adenoidectomy
- Tonsillectomy
- Thyroid Surgery
- Larynx
- Swallowing Difficulty
- Treatment of Voice Disorders

* Special Procedures such as a Laryngoscopy or Nasal Endoscopy may be performed during your examination. The diagnostic scope is an extremely effective method of identifying an ear, nose or throat problem.

This procedure, if used, will be billed separate from your office visit.

We are Accredited in Sinus and Temporal Bone CT with a CT Scanner on site.

Allergy - Asthma

An Allergist / Immunologist is a physician specially trained to diagnose, treat and manage allergies, asthma and immunologic disorders. Becoming an Allergist / Immunologist requires at least an additional 13 years of college and post-graduate training. Our Allergists are certified by the American Board of Allergy and Immunology and the American Board of Internal Medicine, and American Board of Pediatrics.

Comprehensive Allergy and Immunological care for Pediatric and Adult patients, including:

- | | |
|-------------------------------|-------------------|
| Allergic Rhinitis (Hay Fever) | Asthma |
| Sinusitis | Food Allergy |
| Hives | Drug Allergy |
| Recurrent infections | Bee Sting Allergy |
| Pet allergy | Eczema |
| Immunotherapy (Allergy Shots) | |

ATTENTION ALLERGY PATIENTS

Please stop taking any antihistamines 5-7 days prior to your first appointment. Antihistamines will interfere with your allergy testing. If your symptoms are severe and you feel you cannot stop your antihistamines, please continue them and contact our office to inform the Allergy staff.

DO NOT TAKE ANY ANTIHISTAMINES including:

- Diphenhydramine (Benadryl)
- Loratadine (Claritin)
- Desloratadine (Clarinex)
- Cetirizine (Zyrtec)
- Fexofenadine (Allegra)
- Chlorpheniramine
- Hydroxyzine
- Levocetirizine (Xyzal)
- Ranitidine (Zantac)
- Famotidine (Pepcid)
- Cimetidine (Tagamet)

THESE MEDICATIONS MAY CAUSE FALSELY NEGATIVE SKIN TEST RESULTS.

- Continue to take asthma medications as prescribed
- Bring all your medications to your appointment
- Plan for your appointment to last 60-90 minutes
